Strengths and limitations of the event: please include comments received

<p>Strengths of the event and contributions or activities enjoyed by participants:</p>	<ul style="list-style-type: none"> • It covers a broad topic under third mission. The information offered by the seminar stimulates further thinking into the practical issues in third mission. • Relevance • Lectures: All lectures was very interesting, discussions also was very interesting • Lectures: Dr Pausits, Mag Bratengeyer, Mr Avramović... supper with wine tested • Very well describer system and proces of continuing education in Austria • Presentation „ Austria higher education long scope” was useful, and I enjoyed second day presentation about tecnet case. Some examples of good practice were presented, that can be transfered to my university • The group of participants was small, and thus very suitable for this kind of events. Also, participants were from different fields and types of organizations, making it interesting to look at the issues from different perspectives. The topics covered also veryied, but with enough deep explanations
<p>Suggestions for the improvement:</p>	<ul style="list-style-type: none"> • Maybe can think of some inventives that get more people to engage in the discussion among those who participate • 1. Parking for participants, 2.Sighseeing tour of Krems • 1. enable parking place for participants, 2. Sightseeing tour of Krems, 3. Farwell lunch last day, 4. WiFi is very poor • Maybe provide with more templates of quality control process, More attention on time management • More questions should be raised to those who give presentations. In this respect, there can be more discussion between the participants, and not just raising questions to those who present. Also, some workshops can be included to faciliate further discussions
<p>Any further comments</p>	<ul style="list-style-type: none"> • Maybe some examples from practice (study case). What are the real problems LLL studies (involve the students in companies, withdrawal of application of study program, aims of financials, etc.)
