<p>The work package 5 (social engagement dimension) within project IF4TM includes activity 5.3 that consists of several workshops intended to be held at HEIs in order to develop entrepreneurship and creative thinking for pupils and students.</p> <p>Prof. Beatrice Ligorio during skype presentation covered the following topics:</p> <ul style="list-style-type: none"> <li>• Introduction</li> <li>• Workshop part 1 – Individual work</li> <li>• Workshop part 2 – Group work</li> <li>• Workshop part 3 – Collective presentations</li> <li>• Workshop part 4 – Survey</li> <li>• Conclusion</li> </ul> <p>The workshop aimed to demonstrate that together with joint efforts, combining ideas and matching competencies, excellent solutions can be achieved. Each of the students from various faculties of the BMU presented his/hers idea for a project that he would like to realize in the future, the competences she/he needs for realization as well as those that she/he misses. After that, students split into groups, matched their competencies so that other members of the group have those competencies that they lack, and after that, individual ideas have been merged into one common idea. As a result of the workshop, two very interesting ideas were created, which are characterized by innovation and creativity.</p>
